PROFILE

Frontend developer focused on building responsive, modern web experiences with HTML, CSS, JavaScript, React and Next.js. Experienced in developing and deploying real-world e-commerce projects, including the GLEEMORRA fashion platform. Also a data annotator who is comfortable working with structured annotation tasks, following detailed guidelines, maintaining consistency, and learning new workflows quickly. Currently expanding knowledge in data analysis while continuing to grow as a frontend developer.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS
- **Backend / Database:** PHP, PostgreSQL, Neon, Drizzle ORM
- **Tools & Deployment:** Git, GitHub, Vercel, Cloudinary, npm, pnpm
- **Other:** Data Annotation, responsive design, API integration, authentication, e-commerce development

FEATURED PROJECT

GLEEMORRA — Fashion E-commerce Platform

- Designed and developed a modern fashion e-commerce platform using Next.js and a PostgreSQL-based data layer.
- Built product management features covering categories, sizes, colors, stock, retail and wholesale pricing.
- Implemented an admin dashboard with authentication and order-status management.
- Integrated Cloudinary for product image handling and GitHub/Vercel for version control and deployment.
- Implemented a WhatsApp-based order/payment verification workflow instead of traditional card checkout.
- Worked on SEO and Google Search Console setup to improve the site's discoverability in search.

DATA ANNOTATION

Data annotator with confidence in taking on different annotation workflows and adapting to task-specific instructions. Comfortable working carefully with labels, categories, structured guidelines, and quality-focused review processes. Data analysis is currently a developing skill rather than a claimed professional role.

EDUCATION

- **IJMB** — Economics, Business Management & Government
- **Government Day Secondary School (GDSS) Bwari, Abuja** — 2022–2024, Graduated

CERTIFICATION

Techminds Academy — Front-End Development Certificate

ADDITIONAL

Currently developing skills in data analysis while continuing practical frontend development through personal and client-oriented projects. Open to frontend development, data annotation, and entry-level technology opportunities.
